Item 8.01. Other Events.**Change in Composition of Reportable Segments**

As of January 1, 2010, we changed our reporting for intercompany property rent where our cinema operations were substantially the only tenant of such property by eliminating the intersegment revenue and expense relating to the intercompany rent, and transferring the third party lease costs from the real estate segment to the cinema segment. This was a change in the composition of management's reportable segments which requires retrospective adjustments to prior period presentations of segment information to correspond to the new segment reporting structure. This filing provides the retrospective presentation of segment information for the years ended December 31, 2009, 2008, and 2007, which decreases intersegment revenue and expense by the intercompany rent of \$4.2 million, \$1.8 million, and \$439,000, respectively. The overall results of these changes decreases real estate segment revenues and expense by \$4.2 million, \$1.8 million, and \$439,000 for the years ended December 31, 2009, 2008, and 2007, respectively. These changes also result in a reduction of real estate operating expenses and an increase of cinema operating expenses of \$4.2 million, \$1.8 million, and \$439,000 on our Consolidated Statements of Operations for the years ended December 31, 2009, 2008, and 2007, respectively, which represent the transfer of the third party lease costs from the real estate segment to the cinema segment.

The tables below set forth the retrospective presentation of our segment information concerning our cinema operations and our real estate operations (which includes information relating to both our real estate development, retail rental and live theater rental activities) for the three years ended December 31, 2009 (dollars in thousands):
