**Reading International, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (Unaudited)**  
**For the Six Months Ended June 30, 2007**

**Note 1 – Basis of Presentation**

Reading International, Inc., a Nevada corporation (“RDI” and collectively with our consolidated subsidiaries and corporate predecessors, the “Company,” “Reading” and “we,” “us,” or “our”), was founded in 1983 as a Delaware corporation and reincorporated in 1999 in Nevada. Our businesses consist primarily of:

- the development, ownership and operation of multiplex cinemas in the United States, Australia, and New Zealand and
- the development, ownership, and operation of retail and commercial real estate in Australia, New Zealand, and the United States, including entertainment-themed retail centers (“ETRC”) in Australia and New Zealand, and live theatre assets in Manhattan and Chicago in the United States.

The accompanying unaudited consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) for interim reporting and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X of the Securities and Exchange Commission for interim reporting. As such, certain information and footnote disclosures typically required by US GAAP for complete financial statements have been condensed or omitted. There have been no material changes in the information disclosed in the notes to the consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2006 (“2006 Annual Report”). The financial information presented in this quarterly report on Form 10-Q for the period ended June 30, 2007 (the “June Report”), including the information under the heading, Management’s Discussion and Analysis of Financial Condition and Results of Operations, should be read in conjunction with our 2006 Annual Report which contains the latest audited financial statements and related footnotes.

In the opinion of management, all adjustments of a normal recurring nature considered necessary to present fairly in all material respects our financial position, results of our operations and cash flows as of and for the three months and six months ended June 30, 2007 have been made. The results of operations for the three months and six months ended June 30, 2007 are not necessarily indicative of the results of operations to be expected for the entire year.

Marketable Securities

We have investments in marketable securities of \$15.7 million at June 30, 2007. These investments are accounted for as available for sale investments in accordance with Statement of Financial Accounting Standards (“SFAS”) No. 115, “*Accounting for Certain Investments in Debt and Equity Securities.*” In accordance with the Financial Accounting Standards Board’s Emerging Issues Task Force (“EITF”) 03-1, “*The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments,*” assessments of potential impairment for these investments are performed for each applicable reporting period. We have determined that there was no impairment for these investments at June 30, 2007. These investments have a cumulative unrealized gain of \$639,000 included in accumulated other comprehensive income at June 30, 2007. For the three months and six months ended June 30, 2007 our net unrealized gain on marketable securities was \$385,000 and \$738,000, respectively. During the three months ended June 30, 2007, we sold \$5.7 million of our marketable securities resulting in realized gain on sale of \$224,000.

Adjustments

Subsequent to the issuance of our June 30, 2006 consolidated financial statements, we determined that we had overstated our real estate revenue and cinema operating expense by \$1.2 million and \$1.9 million for the three and six months ended June 30, 2006, respectively, due to an error in the elimination of intercompany rental

charges among our international subsidiaries. We have adjusted our consolidated statements of operations for the three and six months ended June 30, 2006 to correctly present consolidated real estate revenue and cinema operating expenses. The effects of the adjustment on our originally reported statements of operations are summarized below (dollars in thousands):

	<u>Three months ended June 30, 2006</u>		<u>Six months ended June 30, 2006</u>	
	<u>Real Estate</u>		<u>Real Estate</u>	
	<u>Revenue</u>	<u>Cinema Expense</u>	<u>Revenue</u>	<u>Cinema Expense</u>
As originally reported	\$ 4,007	\$ 19,187	\$ 7,435	\$ 37,064
Intercompany eliminations	(1,183)	(1,183)	(1,920)	(1,920)
As adjusted	\$ 2,824	\$ 18,004	\$ 5,515	\$ 35,144

This adjustment had no impact on our operating income, on our losses from continuing operations, or on our net loss for the three and six months ended June 30, 2006. These adjustments were not material to the presentation of our consolidated financial statements for the three and six months ended June 30, 2006.

#### Changes in Accounting Policies

In September 2006, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 158, “*Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS No. 158)*.” SFAS No. 158 requires an employer to recognize the funded status of each pension and other postretirement benefit plan as an asset or liability on their balance sheet with all unrecognized amounts to be recorded in other comprehensive income. SFAS No. 158 also ultimately requires an employer to measure the funded status of a plan as of the date of the employer’s fiscal year-end statement of financial position. As required, we adopted the provisions of SFAS No. 158 and initially applied it to the funded status of our defined benefit pension plan as of March 1, 2007 (the inception date of the pension plan). The adoption of SFAS No. 158 had no effect on net earnings or cash flows.

#### New Accounting Pronouncements

##### *Statement of Financial Accounting Standards No. 159*

In February 2007, the FASB issued SFAS No. 159 - *The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115*. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board’s long-term measurement objectives for accounting for financial instruments. The provisions of SFAS 159 are effective at the beginning of each reporting entity’s first fiscal year that begins after November 15, 2007. If adopted, we do not anticipate the application of this pronouncement will have a material impact on our results of operations or financial condition.

##### *Statement of Financial Accounting Standards No. 157*

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurement* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with Generally Accepted Accounting Principles (GAAP), and expands disclosures about fair value measurements. The provisions of SFAS 157 are effective for fiscal years beginning after November 15, 2007. We do not anticipate the

application of this pronouncement will have a material impact on our results of operations or financial condition.

*FASB Interpretation No. 48*

In June 2006, the FASB issued FASB Interpretation No. 48, “Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109” (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with Statement of Financial Accounting Standards No. 109, “Accounting for Income Taxes.” FIN 48 prescribes rules for financial statement recognition and measurement of a tax positions taken or expected to be taken in a tax return. We adopted FIN 48 on January 1, 2007. As a result, we recognized a \$509,000 cumulative increase to reserves for uncertain tax positions, which was accounted for as an adjustment to the beginning balance of accumulated deficit in 2007. Overall, we had approximately \$12.5 million of gross tax benefits unrecognized on the financial statements as of the date of adoption.

**Note 2 – Stock-Based Compensation**

Stock Based Compensation

As part of his compensation package, Mr. John Hunter, our Chief Operating Officer, was granted \$100,000 of restricted Class A Non-Voting Common Stock on February 12, 2007. This stock grant has a vesting period of two years and a stock grant exercise price of \$8.63. During the three months and six months ended June 30, 2007, we recorded compensation expense of \$59,000 and \$119,000, respectively, for the vesting of all our restricted stock grants. The following table details the grants and vesting of restricted stock to our employees (dollars in thousands):

	<b>Non-Vested Restricted Stock</b>	<b>Weighted Average Share Price</b>
Outstanding – December 31, 2006	46,313	\$ 8.10
Granted	11,587	\$ 8.63
Outstanding – June 30, 2007	57,900	\$ 8.20

We have formed two new wholly owned subsidiaries, Landplan Property Partners, Pty Ltd and Landplan Property Partners New Zealand, Ltd collectively referred to as Landplan Property Partners (“LPP”), to engage in the real estate development business under the leadership of Mr. Doug Osborne. We have an agreement with Mr. Osborne pursuant to which he has a contingent interest in certain property trusts, owned by LPP, ranging between 27.5% and 15%, depending on a number of factors including the amount and duration of the investments of LPP. Mr. Osborne’s interest is subordinated to (i) the repayment of all third party indebtedness, (ii) the repayment of all funds invested or advanced by Reading, and (iii) the realization by Reading of an 11% annual compounded preferred return on its capital. Based on SFAS 123(R), we have calculated the fair value of Mr. Osborne’s interest for book purposes at \$171,000 with respect to property acquired by LPP in the first quarter. During the three and six months ended June 30, 2007, we expensed \$57,000 and \$97,000, respectively, associated with Mr. Osborne’s interests. At June 30, 2006, the total unrecognized compensation expense related to the LPP equity awards was \$138,000, which is expected to be recognized over the remaining weighted average period of approximately 12 months.

Employee/Director Stock Option Plan

We have a long-term incentive stock option plan that provides for the grant to eligible employees and non-employee directors of incentive stock options and non-qualified stock options to purchase shares of the Company's Class A Nonvoting Common Stock.

When the Company's tax deduction from an option exercise exceeds the compensation cost resulting from the option, a tax benefit is created. SFAS 123(R) requires that excess tax benefits related to stock option exercises be reflected as financing cash inflows instead of operating cash inflows. For the three months ended June 30, 2007 and 2006, there was no impact to the consolidated statement of cash flows because there were no recognized tax benefits from stock option exercises during these periods.

SFAS No. 123(R) requires companies to estimate forfeitures. Based on our historical experience and the relative market price to strike price of the options, we do not currently estimate any forfeitures of vested or unvested options.

In accordance with SFAS No. 123(R), we estimate the fair value of our options using the Black-Scholes option-pricing model, which takes into account assumptions such as the dividend yield, the risk-free interest rate, the expected stock price volatility, and the expected life of the options. The dividend yield is excluded from the calculation, as it is our present intention to retain all earnings. We expense the estimated grant date fair values of options issued on a straight-line basis over the vesting period.

We granted 231,250 and 301,250 of options during the three and six months ended June 30, 2007, respectively. Of these options, 70,000 were granted to our directors as fully vested options during the six months ended June 30, 2007. Also, there were 20,000 options granted to our employees during the three and six months ended June 30, 2006. We estimated the fair value of these options at the date of grant using a Black-Scholes option-pricing model with the following weighted average assumptions:

	<b>2007</b>	<b>2006</b>
Stock option exercise price	\$8.35 - \$10.30	\$8.10
Risk-free interest rate	4.636 - 4.824%	4.220%
Expected dividend yield	--	--
Expected option life	9.60 - 9.96 yrs	9.66 yrs
Expected volatility	33.64 - 33.74%	34.70%
Weighted average fair value	\$4.42 - \$4.82	\$4.33

Using the above assumptions and in accordance with the SFAS No. 123(R) modified prospective method, we recorded \$92,000 and \$418,000 in compensation expense for the total estimated grant date fair value of stock options that vested during the three and six months ended June 30, 2007, respectively. We also recorded \$25,000 and \$45,000 in compensation expense for the total estimated grant date fair value of stock options that vested during the three and six months ended June 30, 2006, respectively. At June 30, 2007, the total unrecognized estimated compensation cost related to non-vested stock options granted was \$1.0 million, which is expected to be recognized over a weighted average vesting period of 1.44 years. We recorded cash received from stock options exercised of \$88,000 for the six months ended June 30, 2006 and the total realized value of these exercised stock options was \$131,000. No options were exercised during the three or six months ended June 30, 2007 or during the three months ended June 30, 2006; therefore, no cash was received from the exercising of stock options and no value was realized from the exercise of options during those periods. Except for the 70,000 fully vested options granted to our directors during the first quarter, only 5,000 options vested during the three and six months ended June 30, 2007; therefore, the grant date fair value of options vesting during the three and six months ended June 30, 2007 was \$41,000. The intrinsic, unrealized value of all options outstanding, vested and expected to vest, at June 30, 2007 was \$2.3 million of which 98.9% are currently exercisable.

All stock options granted have a contractual life of 10 years at the grant date. The aggregate total number of shares of Class A Nonvoting Common Stock and Class B Voting Common Stock authorized for issuance under our 1999 Stock Option Plan is 1,293,400. At the time that options are exercised, at the discretion of management, we will either issue treasury shares or make a new issuance of shares to the employee or board member. Dependent on the grant letter to the employee or board member, the required service period for option vesting is between zero and four years.

We had the following stock options outstanding and exercisable as of June 30, 2007 and December 31, 2006:

	Common Stock Options Outstanding		Weighted Average Exercise Price of Options Outstanding		Common Stock Exercisable Options		Weighted Average Price of Exercisable Options	
	Class A	Class B	Class A	Class B	Class A	Class B	Class A	Class B
Outstanding-January 1, 2006	521,100	185,100	\$ 5.00	\$ 9.90	474,600	185,100	\$ 5.04	\$ 9.90

Expired	(81,250)	(150,000)	\$ 10.25	\$ 10.24				
Outstanding-June 30, 2007	584,100	185,100	\$ 5.59	\$ 9.90	482,225	35,100	\$ 4.70	\$ 8.47

The weighted average remaining contractual life of all options outstanding, vested and expected to vest, at June 30, 2007 and December 31, 2006 was approximately 6.72 and 3.60 years, respectively. The weighted average remaining contractual life of the exercisable options outstanding at June 30, 2007 and December 31, 2006 was approximately 5.24 and 3.39 years, respectively.

### Note 3 – Business Segments

Our operations are organized into two reportable business segments within the meaning of SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*. Our reportable segments are (1) cinema exhibition and (2) real estate. The cinema segment is engaged in the development, ownership, and operation of multiplex cinemas. The real estate segment is engaged in the development, ownership, and operation of commercial properties, including ETRC's in Australia and New Zealand and live theatres in the United States. Historically, our development projects have included a cinema component. Incident to our real estate operations we have acquired, and continue to hold, raw land in urban and suburban centers in Australia and New Zealand.

Effective the fourth quarter of 2006, we changed the presentation of our segment reporting such that our intersegment revenues and expenses are reported separately from our segments' operating activity. The effect of this change is to include intercompany rent revenues and rent expenses into their respective cinema and real estate business segments. The revenues and expenses for the six months ending June 30, 2006 have been adjusted to conform to the current year presentation. We believe that this presentation more accurately portrays how our operating decision makers' view the operations, how they assess segment performance, and how they make decisions about allocating resources to the segments.

The tables below summarize the results of operations for each of our principal business segments for the three ("2007 Quarter") and six ("2007 Six Months") months ended June 30, 2007 and the three ("2006 Quarter") and six ("2006 Six Months") months ended June 30, 2006, respectively. Operating expenses include costs associated with the day-to-day operations of the cinemas and live theatres and the management of rental properties.

All operating results from discontinued operations are included in "Loss from discontinued operations" (dollars in thousands):

#### Note 4 – Operations in Foreign Currency

We have significant assets in Australia and New Zealand. To the extent possible, we conduct our Australian and New Zealand operations on a self-funding basis. The carrying value of our Australian and New Zealand assets fluctuate due to changes in the exchange rates between the US dollar and the functional currency of Australia (Australian dollar) and New Zealand (New Zealand dollar). We have no derivative financial instruments to hedge foreign currency exposure.

Presented in the table below are the currency exchange rates for Australia and New Zealand as of June 30, 2007 and December 31, 2006:

	US Dollar	
	June 30, 2007	December 31, 2006
Australian Dollar	\$ 0.8491	\$ 0.7884
New Zealand Dollar	\$ 0.7730	\$ 0.7046

#### Note 5 – Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing the net income (loss) to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed by dividing the net income (loss) to common stockholders by the weighted average number of common shares outstanding during the period after giving effect to all potentially dilutive common shares that would have

<sup>2</sup> For the six months ended June 30, 2006, the real estate revenues and cinema operating expenses have been adjusted from the amounts previously reported. See Note 1 – *Basis of Presentation*.

been outstanding if the dilutive common shares had been issued. Stock options give rise to potentially dilutive common shares. In accordance with SFAS No. 128, "Earnings Per Share," these shares are included in the dilutive loss per share calculation under the treasury stock method. The following is a calculation of earnings (loss) per share (dollars in thousands, except share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Loss from continuing operations	\$ (278)	\$ (234)	\$ (924)	\$ (3,380)
Gain on sale of a discontinued operation	1,912	--	1,912	--
Net income (loss)	\$ 1,634	\$ (234)	\$ 988	\$ (3,380)
Earnings (loss) per common share – basic:				
Loss from continuing operations	\$ (0.01)	\$ (0.01)	\$ (0.04)	\$ (0.15)
Gain on sale of a discontinued operation	0.08	--	0.08	--
Basic earnings (loss) per share	\$ 0.07	\$ (0.01)	\$ 0.04	\$ (0.15)
Weighted average common stock – basic and diluted	22,487,943	22,413,995	22,485,480	22,431,834

For the three and six months ended June 30, 2007 and 2006, we recorded losses from continuing operations. As such, the incremental shares of 262,428 and 204,055 in 2007 and 2006 from stock options to purchase shares of common stock were excluded from the computation of diluted loss per share because they were anti-dilutive in those periods.

#### Note 6 - Property Under Development and Property and Equipment

As of June 30, 2007 and December 31, 2006, we owned property under development summarized as follows (dollars in thousands):

Property Under Development	June 30, 2007	December 31, 2006
Land	\$ 35,975	\$ 30,296
Construction-in-progress (including capitalized interest)	19,489	8,580
Property Under Development	\$ 55,464	\$ 38,876

We recorded capitalized interest related to our properties under development for the three months ended June 30, 2007 and 2006 of \$900,000 and \$354,000, respectively, and \$2.0 million and \$705,000 for six months ended June 30, 2007 and 2006, respectively.

Incident to the development of our Burwood property, in late 2006, we began various fill and earth moving operations. In late February 2007, it became apparent that our cost estimates with respect to site preparation were low, as the extent of the contaminated soil present at the site – a former brickworks – was greater than we had originally believed. Our previous estimated cost of \$500 million included the approximately \$1.4 million (AUS\$1.8 million) of estimated cost to remove the contaminated soil. As we were not the source of this contamination, we are not currently under any legal obligation to remove this contaminated soil from the site. However, as a practical matter we intend to address these issues in connection with our planned redevelopment of the site as a mixed-use retail, entertainment, commercial and residential complex. As of June 30, 2007, we estimate that the total site preparation costs associated with the removal of this contaminated soil will be \$7.5 million (AUS\$8.9 million) and as of that date we had incurred a total of \$4.1 million (AUS\$4.8 million) of these costs. In accordance with EITF 90-8 *Capitalization of Costs to Treat Environmental*

Contamination, contamination clean up costs that improve the property from its original acquisition state are capitalized as part of the property's overall development costs.

As of June 30, 2007 and December 31, 2006, we owned investments in property and equipment as follows (dollars in thousands):

<b>Property and equipment</b>	<b>June 30, 2007</b>	<b>December 31, 2006</b>
Land	\$ 57,766	\$ 56,830
Building	111,928	99,285

Less accumulated depreciation	(64,972)	(55,175)
<b>Property and equipment, net</b>	<u>\$ 179,939</u>	<u>\$ 170,667</u>

Depreciation expense for property and equipment was \$2.8 million and \$3.1 million for the three months ended June 30, 2007 and 2006, respectively, and \$5.5 million and \$6.2 million for the six months ended June 30, 2007 and 2006, respectively.

**Note 7 – Investments in Unconsolidated Joint Ventures and Entities**

Except as noted below regarding our investment in Malulani Investments, Limited, investments in unconsolidated joint ventures and entities are accounted for under the equity method of accounting, and, as of June 30, 2007 and December 31, 2006, include the following (dollars in thousands):

	<b>Interest</b>	<b>June 30, 2007</b>	<b>December 31, 2006</b>

Berkeley Cinemas – Botany	50.0%	646	607
<b>Total</b>		<u>\$ 16,179</u>	<u>\$ 19,067</u>

For the three months and six months ended June 30, 2007 and 2006, we recorded our share of equity earnings (loss) from our investments in unconsolidated joint ventures and entities as follows:

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>

Malulani Investments, Limited

We continue to treat this investment on a cost basis by recognizing earnings as they are distributed to us.

205-209 East 57<sup>th</sup> Street Associates, LLC

During 2007, this joint venture has been in the process of completing the development of a predominately-residential condominium complex in midtown Manhattan called Place 57. During the three and six months ending June 30, 2007, the partnership closed on the sale of one and seven of its remaining eight residential condominiums resulting in gross sales of \$2.3 million and \$22.6 million, respectively, which resulted in equity earnings from unconsolidated joint ventures and entities to us of \$39,000 and \$1.3 million, respectively. One remaining residential condominium is under contract to be sold and the retail condominium is still available to be sold. The condensed statement of operations for 205-209 East 57th Street Associates, LLC (Unaudited) is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Net revenue	\$ 2,347	\$ 15,820	\$ 22,597	\$ 15,820

Net income	\$ 154	\$ 3,674	\$ 5,765	\$ 3,674

**Note 8 – Goodwill and Intangible Assets**

Subsequent to January 1, 2002, in accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*, we do not amortize goodwill. Instead, we perform an annual impairment review of our goodwill and other intangible assets in the fourth quarter unless changes in circumstances indicate that an asset may be impaired. As of June 30, 2007 and December 31, 2006, we had goodwill consisting of the following (dollars in thousands):

	Cinema	Real Estate	Total
Balance as of January 1, 2007	\$ 12,713	\$ 5,206	\$ 17,919
Foreign currency translation adjustment	1,036	72	1,108
Balance at June 30, 2007	\$ 13,749	\$ 5,278	\$ 19,027

We have intangible assets other than goodwill that are subject to amortization and are being amortized over various periods. We amortize our beneficial leases over the lease period, the longest of which is 20 years, and our option fee and other intangible assets over 10 years. For the three months ended June 30, 2007 and 2006, amortization expense totaled \$248,000 and \$218,000, respectively; and for the six months ended June 30, 2007 and 2006, amortization expense totaled \$475,000 and \$414,000, respectively.

Intangible assets subject to amortization consist of the following (dollars in thousands):

As of June 30, 2007	Beneficial Leases	Option Fee	Other Intangible Assets	Total
Gross carrying amount	\$ 11,523	\$ 2,773	\$ 239	\$ 14,535
Less: Accumulated amortization	4,000	2,474	23	6,497
Total, net	\$ 7,523	\$ 299	\$ 216	\$ 8,038

Other	704	485
Total non-current assets	\$ 5,214	\$ 2,859

**Note 10 – Income Tax**

The income tax provision for the three months and six months ended June 30, 2007 and 2006 was composed of the following amounts (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Foreign income tax provision	\$ 73	\$ 30	\$ 160	\$ 59
Foreign withholding tax	172	137	312	273
Federal tax provision	128	128	255	255
Other income tax	70	49	215	94
Net tax provision	\$ 443	\$ 344	\$ 942	\$ 681

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109" (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes." FIN 48 prescribes rules for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return.

The incremental effects of applying FIN 48 on line items in the accompanying consolidated balance sheet at January 1, 2007 was as follows (dollars in thousands):

	<b>Before Application of FIN 48 on January 1, 2007</b>	<b>FIN 48 Adjustments as of January 1, 2007</b>	<b>After Application of FIN 48 on January 1, 2007</b>
Current tax liabilities	\$ 9,128	\$ (4,000)	\$ 5,128
Noncurrent tax liabilities	\$ --	\$ 4,509	\$ 4,509
Accumulated deficit	\$ (50,058)	\$ (509)	\$ (50,567)

We adopted FIN 48 on January 1, 2007. As a result, we recognized a \$509,000 cumulative increase to reserves for uncertain tax positions, which was accounted for as an adjustment to the beginning balance of accumulated deficit in 2007. As of that date, we also reclassified approximately \$4.0 million in reserves from current taxes liabilities to noncurrent tax liabilities. We had approximately \$12.5 million of gross tax benefits unrecognized on the financial statements as of the date of adoption, mostly reflecting operating loss carry forwards and the IRS litigation matter described below. Of the \$12.5 million total gross unrecognized tax benefits at January 1, 2007, \$4.5 million would impact the effective tax rate if recognized. The remaining balance consists of items that would not impact the effective tax rate due to the existence of the valuation allowance. We recorded an increase to our gross unrecognized tax benefits of approximately \$390,000 during the period January 1, 2007 to June 30, 2007, and the total balance at June 30, 2007 was approximately \$12.9 million.

Interest and/or penalty related to income tax matters are recorded as part of income tax expense. Of the total reserve for uncertain tax positions as of the date of adoption, approximately \$1.7 million represented accrued interest and penalties. Approximately \$370,000 of additional interest and penalties were accrued for the period January 1, 2007 to June 30, 2007, mostly related to the IRS assessment described below.

Our company and subsidiaries are subject to U.S. federal income tax, income tax in various U.S. states, and income tax in Australia, New Zealand, and Puerto Rico.

Generally, changes to our federal and most state income tax returns for the calendar year 2002 and earlier are barred by statutes of limitations. Certain domestic subsidiaries filed federal and state tax returns for periods before these entities became consolidated with us. These subsidiaries were examined by IRS for the years 1996 to 1999 and significant tax deficiencies were assessed for those years. We are contesting these deficiencies in Tax Court. Our income tax returns of Australia filed since inception in 1995 are currently open for examination. The income tax returns filed in New Zealand and Puerto Rico for calendar year 2002 and afterward are also currently open for examination.

We do not anticipate that within 12 months following June 30, 2007 our total unrecognized tax benefits will change significantly because of settlement of audits and expiration of statutes of limitations.

Notes Payable

During the first six months of 2007, we retired a portion of our bank indebtedness in Australia of \$5.8 million (AUS\$7.4 million). We subsequently drew down \$3.4 million (AUS\$4.0 million) during the second quarter of 2007. This credit facility remains available to us in full to draw on when needed either for additional working capital or for acquisitions.

Euro-Hypo Loan

On June 28, 2007, Sutton Hill Properties LLC (“SHP”), one of our consolidated subsidiaries, entered into a \$15.0 million loan that is secured by SHP’s interest in the Cinemas 1, 2, & 3 land and building. SHP is owned 75% by Reading and 25% by Sutton Hill Capital, LLC (“SHC”), a joint venture indirectly wholly owned by Mr. James J. Cotter, our Chairman and Chief Executive Officer and an unrelated third party. The terms of the credit agreement require interest only payments at 6.725% fixed until the loan matures on July 1, 2012. The most restrictive covenant for the service of this loan will be the monthly interest payments to be made by SHP. Because, the cash flows from SHP are insufficient, the ownership partners of SHP, Reading International, Inc. and Sutton Hill Capital, LLC, will be required to regularly contribute capital to the partnership to service the debt. Reading will be responsible for 75% and SHC will be responsible for 25% of any such shortfall.

New Zealand Corporate Credit Facility

On June 29, 2007, we finalized the renegotiation of our New Zealand Corporate Credit Facility as a \$46.4 million (NZ\$60.0 million) line of credit. This renegotiated agreement carries the same terms as noted in our 2006 Consolidated Financial Statements except that it is now a line of credit instead of term debt, the maturity date has been extended by one year to November 23, 2010, the interest rate for the facility will be based on the 90-day Bank Bill Bid Rate (BBBR) plus a 1.00% margin, and a 0.20% line charge will be incurred on the total line of credit of \$46.4 million (NZ\$60.0 million). The current interest rate for the outstanding loan balance at June 30, 2007 was 9.50%. As noted below, we had previously paid off our term debt of this facility of \$34.4 million (NZ\$50.0 million) as a use of the proceeds from our new Subordinated Notes from Reading International Trust I. On June 29, 2007, we drew down on this new line of credit by \$5.2 million (NZ\$6.7 million) to purchase a property in New Zealand (see Note 17 – Acquisitions and Dispositions).

**UBS Financial Services Line of Credit**

In order to finance a portion of our purchases of marketable securities, we had arranged a line of credit (a broker margin account) with UBS Financial Services, Inc. which carried an interest rate of 7.25%. The line of credit was secured by the marketable securities which we purchased on the account. Under the line of credit, we were able to borrow approximately 50% of the market value of our securities in our UBS account. During the second quarter of 2007, we paid off this line of credit in conjunction with our sale of the associated marketable securities.

**Subordinated Notes – Reading International Trust I**

On February 5, 2007, we issued \$51.5 million in 20-year fully subordinated notes to a trust which we control, and which in turn issued \$51.5 million in securities. Of the \$51.5 million, \$50.0 million in trust preferred securities were issued to unrelated investors in a private placement and \$1.5 million of common trust securities were issued by the trust to Reading. This \$1.5 million is shown on our balance sheet as “Investment in Reading International Trust I.” The interest on the notes and preferred dividends on the trust securities carry a fixed rate for five years of 9.22% after which the interest will be based on an adjustable rate of LIBOR plus 4.00% unless we exercise our right to refix the rate at the current market rate at that time. There are no principal payments due until maturity in 2027 when the notes and the trust securities are scheduled to be paid in full. We may pay off the debt after the first five years at 100.0% of the principal amount without any penalty. The trust is essentially a pass through, and the transaction is accounted for on our books as the issuance of fully subordinated notes. The credit facility includes a number of affirmative and negative covenants designed to monitor our ability to service the debt. Currently, the most restrictive covenant of the facility requires that we must maintain a fixed charge coverage ratio at a certain level. The placement generated \$49.9 million in net proceeds, which were used principally to make our investment in the common trust securities of \$1.5 million, to retire all of our bank indebtedness in New Zealand of \$34.4 million (NZ\$50.0 million) and to retire a portion of our bank indebtedness in Australia of \$5.8 million (AUS\$7.4 million). During the three and six months ended June 30, 2007, we paid \$1.1 million in preferred dividends to the unrelated investors. At June 30, 2007, we had preferred dividends payable of \$768,000.

## Executive Pension Plans

On March 15, 2007, the Board of Directors of Reading International, Inc. (“Reading”) approved a Supplemental Executive Retirement Plan (“SERP”) pursuant to which Reading has agreed to provide James J. Cotter, its Chief Executive Officer and Chairman of the Board of Directors, supplemental retirement benefits effective March 1, 2007. Under the SERP, Mr. Cotter will receive a monthly payment of the greater of (i) 40% of the average monthly earnings over the highest consecutive 36-month period of earnings prior to Mr. Cotter’s separation from service with Reading or (ii) \$25,000 per month for the remainder of his life, with a guarantee of 180 monthly payments following his separation from service with Reading or following his death. The beneficiaries under the SERP may be designated by Mr. Cotter or by his beneficiary following his or his beneficiary’s death. The benefits under the SERP are fully vested as of March 1, 2007.

The SERP initially will be unfunded, but Reading may choose to establish one or more grantor trusts from which to pay the SERP benefits. As such, the SERP benefits are unsecured, general obligations of Reading. The SERP is administered by the Compensation Committee of the Board of Directors of Reading. In accordance with SFAS 158 - *Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R)*, the initial pension benefit obligation of \$2.7 million is included in our other liabilities with a corresponding amount of unrecognized prior service cost included in accumulated other comprehensive income (see Note 16 – *Comprehensive Income*). The \$2.7 million will be amortized as a prior service cost over the estimated service period of 10 years combined with an annual interest cost. For the three and six months ended June 30, 2007, we recognized \$39,000 and \$52,000, respectively, of interest cost and \$76,000 and \$101,000, respectively, of amortized prior service cost. The balance of the other liability for this pension plan is \$2.7 million at June 30, 2007 and the accumulated other comprehensive income balance was \$2.6 million at June 30, 2007. The value of the SERP is based on a discount rate of 5.75% and an annual compensation growth rate of 3.50%.

In addition to the aforementioned SERP, Mr. S. Craig Tompkins has a vested interest in the pension plan originally established by Craig Corporation prior to its merger with our company of \$181,000, which amount accrues interest at 30 day LIBOR and is maintained as an unfunded Executive Pension Plan obligation included in other liabilities.

## Sutton Hill Capital – Cinemas 1, 2, & 3 Purchase Option

As part of the purchase of the real property underlying our leasehold interest in the Cinemas 1, 2, & 3 on June 1, 2005, we granted a purchase option to Sutton Hill Capital, LLC (“SHC”), a limited liability company beneficially owned in equal 50/50 shares by Messrs. James J. Cotter and Michael Forman, to acquire at the acquisition date cost basis, up to a 25% non-managing membership interest in Sutton Hill Properties, LLC (“SHP”). SHP is the limited liability company that we formed to acquire these interests. In relation to this option, we estimated, based on a June 2007 property appraisal, the fair value of the option for the three months ending June 30, 2007 remained unchanged and the fair value of the option had increased for the six months ended June 30, 2007 by \$950,000 which was expensed for the six months ending June 30, 2007. During 2006, the value of the option at June 30, 2006 had increased from approximately \$1.7 million at January 1, 2006 to \$3.5 million, resulting in an expense for the three and six months ended June 30, 2006 of \$275,000 and \$1.4 million, respectively.

On June 28, 2007, SHC exercised this option with the application of their \$3.0 million deposit plus the assumption of their proportionate share of SHP’s liabilities giving them a 25% non-managing membership interest in SHP. Upon exercise, the settlement of the previously capitalized option liability of \$4.6 million resulted in an increase in additional paid-in-capital of \$2.5 million as the transfer of the 25% non-managing membership interest to SHC constituted a transfer of an equity interest between entities under common control.

**Note 13 – Commitments and Contingencies****Unconsolidated Debt**

Total debt of unconsolidated joint ventures and entities was \$5.3 million and \$4.8 million as of June 30, 2007 and December 31, 2006, respectively. Our share of unconsolidated debt, based on our ownership percentage, was \$2.4 million and \$2.2 million as of June 30, 2007 and December 31, 2006, respectively. This debt is without recourse to Reading as of June 30, 2007 and December 31, 2006.

**Litigation**

There have not been any material changes to our litigation exposure since our December 31, 2006 Consolidated Financial Statements.

**Note 14 – Minority Interest**

Minority interest is composed of the following enterprises:

- 50% of membership interest in Angelika Film Center LLC (“AFC LLC”) owned by a subsidiary of National Auto Credit, Inc.;
- 25% minority interest in Australia Country Cinemas Pty Ltd (“ACC”) owned by Panorama Cinemas for the 21<sup>st</sup> Century Pty Ltd.;
- 33% minority interest in the Elsternwick Joint Venture owned by Champion Pictures Pty Ltd.;
- Up to 27.5% minority interest in certain property holding trusts established by Landplan Property Partners to hold, manage and develop properties identified by Doug Osborne;
- 25% minority interest in the Sutton Hill Properties, LLC owned by Sutton Hill Capital, LLC; and
- 20% minority interest in Big 4 Farming LLC by Cecelia Packing Corporation.

Landplan Property Partners

As fully described in our 2006 Consolidated Financial Statements, we have formed two new wholly-owned subsidiaries, Landplan Property Partners, Pty Ltd and Landplan Property Partners New Zealand, Ltd collectively referred to as Landplan Property Partners ("LPP"), to engage in the real estate development business under the leadership of Mr. Doug Osborne. We have an agreement with Mr. Osborne pursuant to which he has a contingent interest in certain property trusts, owned by LPP, ranging between 27.5% and 15%, depending on a number of factors including the amount and duration of the investments of LPP. Mr. Osborne's interest is subject to (i) the repayment of all third party indebtedness, (ii) the repayment of all funds invested or advanced by Reading, and (iii) the realization by Reading of an 11% annual compounded preferred return on its capital. Based on SFAS 123(R), we have calculated the fair value of Mr. Osborne's interest for book purposes at \$171,000 with respect to property acquired by LPP in the first quarter. During the three and six months ended June 30, 2007, we expensed \$57,000 and \$97,000, respectively, associated with Mr. Osborne's interests.

Sutton Hill Properties

On June 28, 2007, SHC exercised its Cinemas 1, 2, & 3 Purchase Option for a cash contribution of \$3.0 million plus the assumption of their proportionate share of SHP's liabilities giving them a 25% non-managing membership interest in SHP.

Big 4 Farming LLC

The Big 4 Farming entity that is subject to this minority interest is not an operating company.

**Note 15 – Common Stock**Employee Stock Grants

As part of his compensation package, Mr. John Hunter, our Chief Operating Officer, was granted \$100,000 of restricted Class A Non-Voting Common Stock on February 12, 2007. This stock grant has a vesting period of two years and a stock grant price of \$8.63.

**Note 16 - Comprehensive Income**

U.S. GAAP requires that the effect of foreign currency translation adjustments and unrealized gains and/or losses on securities that are available-for-sale ("AFS") be classified as comprehensive income. The following table sets forth our comprehensive income for the periods indicated (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

**Note 17 – Acquisitions, Dispositions, and Assets Held for Sale**New Zealand Property Acquisitions

On June 29, 2007, we acquired a commercial property for \$5.9 million (NZ\$7.6 million), rented to an unrelated third party, to be held for current income and long term appreciation. We have not yet completed our purchase price allocation for this property and the related acquired operating lease in accordance with SFAS 141 – *Business Combinations*. The initial purchase price allocation was based on the assets acquired from the seller. The preliminary purchase price allocation for this acquisition is \$1.2 million (NZ\$1.6 million) allocated to land and \$4.7 million (NZ\$6.1 million) allocated to building. In addition, we entered into a contract, through a Landplan Property Partners property trust, to purchase 64.0 acres of undeveloped agricultural land for \$9.2 million (NZ\$11.9 million), and made a deposit of \$907,000 (NZ\$1.2 million) with respect to that transaction. The property was subsequently acquired on July 27, 2007 (see Note 19 – *Subsequent Events*). We anticipate rezoning the property from its current agricultural use to commercial use, and thereafter to redevelop the property in accordance with its proposed new zoning. No assurances can be given that such rezoning will be achieved, or if achieved, that it will be achieved in the near term.

On February 14, 2007, we acquired, through a Landplan Property Partners property trust, a 1.0 acre parcel of commercial real estate for approximately \$5.3 million (NZ\$7.7 million). The property is currently improved with a motel, but we anticipate that this use will be discontinued as we renovate the property and sell the units as condominiums. A portion of this property includes unimproved land that we do not intend to develop. At the time of purchase, this land was determined to have a fair value of \$1.8 million (NZ\$2.6 million) and is included on our balance sheet as land held for sale. The remaining property and its cost basis of \$3.5 million (NZ\$5.1 million) was included in property under development. The operating activities of the motel are not material. We have completed our purchase price allocation for this property in accordance with SFAS 141 – *Business Combinations*.

Cinemas 1, 2, & 3 Building

On June 28, 2007, we purchased the building associated with our Cinemas 1, 2, & 3 for \$100,000 from Sutton Hill Capital (“SHC”). Our option to purchase that building has been previously disclosed, and was granted to us by SHC at the time that we acquired the underlying ground lease from SHC on June 1, 2005. As SHC is a related party to our corporation, our Board’s Audit and Conflicts Committee, comprised entirely of outside independent directors, and subsequently our entire Board of Directors unanimously approved the purchase of the property. The Cinemas 1, 2 & 3 is located on 3rd Avenue between 59th and 60th Streets.

Tower Ground Lease

On February 8, 2007, we purchased the tenant’s interest in the ground lease underlying the building lease for one of our domestic cinemas. The purchase price of \$493,000 was paid in two installments; \$243,000 was paid on February 8, 2007 and \$250,000 was paid on June 28, 2007.

**Discontinued Operation**

In June 2007, upon the fulfillment of our commitment, we recorded the release of a deferred gain on the sale of a discontinued operation of \$1.9 million associated with a previously sold property.

**Note 18 – Derivative Instruments**

The following table sets forth the terms of our interest rate swap derivative instruments at June 30, 2007:

<b>Type of Instrument</b>	<b>Notional Amount</b>	<b>Pay Fixed Rate</b>	<b>Receive Variable Rate</b>	<b>Maturity Date</b>
Interest rate swap	\$ 9,128,000	5.7000%	6.5650%	December 31, 2007
Interest rate swap	\$ 14,222,000	6.4400%	6.5650%	December 31, 2008
Interest rate swap	\$ 13,861,000	6.6800%	6.5650%	December 31, 2008
Interest rate swap	\$ 10,338,000	5.8800%	6.5650%	December 31, 2008
Interest rate swap	\$ 2,972,000	6.3600%	6.5650%	December 31, 2008
Interest rate swap	\$ 2,972,000	6.9600%	n/a	December 31, 2008

In accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, we marked our Australian interest rate swap instruments to market on the consolidated balance sheet resulting in a \$74,000 (AUS\$73,000) and \$111,000 (AUS\$112,000) decrease to interest expense during the three and six months ended June 30, 2007, respectively, and a \$442,000 (AUS\$621,000) and \$553,000 (AUS\$755,000) increase to interest expense during the three and six months ended June 30, 2006, respectively. At June 30, 2007 and December 31, 2006, we have recorded the fair market value of our interest rate swaps of \$317,000 (AUS\$373,000) and \$206,000 (AUS\$261,000), respectively, as an other noncurrent asset. The last swap listed above with a notional amount of \$2,972,000 does not have a "Receive Variable Rate" because the instrument will not be effective until July 1, 2007. In accordance with SFAS No. 133, we have not designated any of our current interest rate swap positions as financial reporting hedges.

**Note 19 – Subsequent Events****New Zealand Property Acquisition**

On July 27, 2007, we purchased through a Landplan Property Partners property trust a 64.0 acre parcel of undeveloped agricultural real estate for approximately \$9.2 million (NZ\$11.9 million). We anticipate rezoning the property from its current agricultural use to commercial use, and thereafter to redevelop the property in accordance with its new zoning. No assurances can be given that such rezoning will be achieved, or if achieved, that it will be achieved in the near term.

## **Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations**

As Reading International, Inc. (RDI and collectively with our consolidated subsidiaries, “Reading” and “we,” “us” or “our”), our businesses consist primarily of:

- the development, ownership, and operation of multiplex cinemas in the United States, Australia, and New Zealand; and
- the development, ownership, and operation of retail and commercial real estate in Australia, New Zealand, and the United States, including entertainment-themed retail centers (“ETRCs”) in Australia and New Zealand and live theater assets in Manhattan and Chicago in the United States.

We believe cinema exhibition to be a business that will likely continue to generate fairly consistent cash flows in the years ahead. This is based on our belief that people will continue to spend some reasonable portion of their entertainment dollar on entertainment outside of the home and that, when compared to other forms of outside the home entertainment, movies continue to be a popular and competitively priced option. While we intend to be opportunistic in adding to our existing cinema portfolio (and are continuing to consider the acquisition of existing cinema assets as they come on the market), we believe it is likely that, over the long term, we will be reinvesting the majority our free cash flow more in our general real estate development activities than in our cinema activities. Over time, we anticipate that our cinema operations will become increasingly a source of cash flow to support our real estate oriented activities, rather than a focus of growth, and that our real estate activities will become the principal thrust of our business.

In short, while we do have operating company attributes, we see ourselves principally as a hard asset company and intend to add to shareholder value by building the value of our portfolio of tangible assets.

In addition, we may from time to time identify opportunities to expand our existing businesses and asset base, or to otherwise profit, through the acquisition of interests in other publicly traded companies, both in the United States and in the overseas jurisdictions in which we do business. At June 30, 2007, our investments in the securities of other public companies aggregated \$15.7 million, based on the closing price of such securities on that date.

We manage our worldwide cinema business under various different brands:

- in the US, under the *Reading*, *Angelika Film Center* and *City Cinemas* brands;
- in Australia, under the *Reading* brand; and
- in New Zealand, under the *Reading*, *Berkeley Cinemas* and *Rialto* brands.

At June 30, 2007, we owned and operated 35 cinemas with 231 screens, had interests in certain unconsolidated joint ventures and entities that own an additional 7 cinemas with 46 screens and managed 2 cinemas with 9 screens.

Our business plan going forward is to build-out our existing development properties and to seek out additional real estate development opportunities while continuing to use our presence in the cinema exhibition and live theatre business, to identify, develop and acquire cinema and live theatre properties.

A significant portion of our business is conducted in Australia and New Zealand, and as such, we are subject to a certain degree of currency risk. We do not engage in currency hedging activities. Rather, to the extent possible, we operate our Australian and New Zealand operations on a self-funding basis. Our policy in Australia and New Zealand is to match revenues and expenses, whenever possible, in local currencies. As a result, the majority of our expenses in Australia and New Zealand have been procured in local currencies. Due to the

developing nature of our operations in Australia and New Zealand, our revenues are not yet significantly greater than our operating expenses. The resulting natural operating hedge has led to a negligible foreign currency effect on our net earnings. However, with the recent reduction in our New Zealand and Australia debt, foreign currency can have a significant effect on the value of assets and liabilities with fluctuations noted in other comprehensive income. On February 5, 2007, we issued \$51.5 million in 20-year fully subordinated notes and paid off our bank indebtedness in New Zealand \$34.4 million (NZ\$50.0 million) and retired a portion of our bank indebtedness in Australia \$5.8 million (AUS\$7.4 million). By paying off our New Zealand debt and paying down on our Australia debt with the proceeds of our Trust Preferred Securities, we have added an increased element of currency risk to our Company. We believe that this currency risk is mitigated by the comparatively favorable interest rate and the long-term nature of the fully subordinated notes. As we continue to progress with our acquisition and development activities in Australia and New Zealand, we cannot assure you that the foreign currency effect on our earnings will be insignificant in the future.

We continue to acquire, to dispose of, or to reposition assets in accordance with our business plan. For a description of our acquisitions so far in 2007, see Note 17 – *Acquisitions and Assets Held for Sale* to our June 30, 2007 Consolidated Financial Statements.

## Results of Operations

At June 30, 2007, we owned and operated 35 cinemas with 231 screens, had interests in certain unconsolidated joint ventures and entities that own an additional 7 cinemas with 46 screens and managed 2 cinemas with 9 screens. Regarding real estate, we owned and operated during the period four ETRC's that we have developed in Australia and New Zealand; owned the fee interests in four developed commercial properties in Manhattan and Chicago, all of which are improved with live theatres, which together comprise seven stages and, in two cases, ancillary retail and commercial space; owned the fee interests underlying one of our Manhattan cinemas and hold for development an additional seven parcels (aggregating approximately 59 acres) located principally in urbanized areas of Australia and New Zealand. Two of these parcels, Burwood and Moonee Ponds, comprise approximately 54 acres, and are in areas designated by the provincial government of Victoria, Australia as "major or principal activity centres," and we are currently in the planning phases of their development.

Operating expenses include costs associated with the day-to-day operations of the cinemas and live theatres and the management of rental properties. Our year-to-year results of operation were principally impacted by the following:

- the opening in the fourth quarter of 2005 and the occupancy of the majority of tenancies during first and second quarters of 2006 of our Newmarket Shopping Center, a 100,000 square foot retail center in a suburb of Brisbane, Australia;
- the acquisition of a cinema in Queenstown, New Zealand effective February 23, 2006;
- the purchase of the 50% share that we did not already own of the Palms 8-screen, leasehold cinema located in Christchurch, New Zealand effective April 1, 2006;
- the sale of our 50% share of the cinemas at Whangaparaoa, Takapuna and Mission Bay, New Zealand formerly part of the Berkeley Cinemas Group effective August 28, 2006; and
- the increase in the value of the Australian and New Zealand dollars vis-à-vis the US dollar from \$0.7423 and \$0.6105, respectively, as of June 30, 2006 to \$0.8491 and \$0.7730, respectively, as of June 30, 2007.

The tables below summarize the results of operations for each of our principal business segments for the three ("2007 Quarter") and six ("2007 Six Months") months ended June 30, 2007 and the three ("2006 Quarter") and six ("2006 Six Months") months ended June 30, 2006, respectively. Effective the fourth quarter of 2006, we

changed the presentation of our segment reporting such that our intersegment revenues and expenses are reported separately from our segments' operating activity. The effect of this change is to include intercompany rent revenues and rent expenses into their respective cinema and real estate business segments. The revenues and expenses for the three and six months ending June 30, 2006 have been adjusted to conform to the current year presentation. We believe that this presentation more accurately portrays how our operating decision makers' view the operations, how they assess segment performance, and how they make decisions about allocating resources to the segments (dollars in thousands):

- Cinema revenue increased for the 2007 Quarter by \$2.1 million or 8.7% compared to the same period in 2006. The 2007 Quarter increase resulted from improved results from our Australia and New Zealand operations including \$1.4 million from admissions and \$1.0 million from concessions and other revenues.
- Operating expense increased for the 2007 Quarter by \$2.1 million or 10.6% compared to the same period in 2006. This increase followed the aforementioned increase in revenues. Overall, our operating expenses from year-to-year held fairly constant at 82% of gross revenue for the 2007 Quarter and 81% of gross revenue for the 2006 Quarter.
- Depreciation and amortization expense decreased for the 2007 Quarter by \$473,000 or 20.8% compared to the same period in 2006 primarily related to several Australia cinema assets reaching their useful depreciable life as of December 31, 2006.
- General and administrative expense increased for the 2007 Quarter by \$29,000 or 4% compared to the same period in 2006.

<sup>5</sup> For the three months ended June 30, 2006, the cinema operating expenses have been adjusted from the amounts previously reported. See Note 1 – *Basis of Presentation*.

Because of the above, cinema segment income increased for the 2007 Quarter by \$478,000 compared to the same period in 2006.

The following tables detail our cinema segment operating results for the six months ended June 30, 2007 and 2006, respectively, (dollars in thousands):

Cinema revenue increased for the 2007 Six Months by \$4.1 million or 8.8% compared to the same period in 2006. The 2007 Six Month increase related to improved results not only from our Australia and New Zealand operations including \$2.1 million from admissions and \$986,000 from concessions and other revenues but also from our domestic cinema operations of \$864,000 from admissions and \$98,000 from concessions and other revenues.

Operating expense increased for the 2007 Six Months by \$3.1 million or 8.2% compared to the same period in 2006. This increase followed the aforementioned increase in revenues. Overall, our operating expenses from year-to-year held constant at 81% of gross revenue for the Six Months ended 2007 and 2006.

<sup>6</sup> For the six months ended June 30, 2006, the cinema operating expenses have been adjusted from the amounts previously reported. See Note 1 – *Basis of Presentation*.

- Depreciation and amortization expense decreased for the 2007 Six Months by \$763,000 or 17.5% compared to the same period in 2006. This decrease is primarily related to several Australia cinema assets reaching their useful depreciable life as of December 31, 2006.
- General and administrative expense decreased for the 2007 Six Months by \$374,000 or 19.7% compared to the same period in 2006. The decrease was due to a drop in legal costs primarily related to our anti-trust litigation associated with our Village East cinema.
- As a result of the above, cinema segment income increased for the 2007 Six Months by \$2.1 million compared to the same period in 2006.

**Real Estate**

For the three months ended June 30, 2007, our third party, rental generating real estate holdings consisted of:

- ETRCs at Belmont in Perth; at Auburn in Sydney; and at Courtenay Central in Wellington, New Zealand; and our Newmarket shopping center in Brisbane, Australia;
- three single auditorium live theatres in Manhattan (Minetta Lane, Orpheum, and Union Square) and a four auditorium live theatre complex in Chicago (The Royal George) and, in the case of the Union Square and the Royal George their accompanying ancillary retail and commercial tenants;
- the ancillary retail and commercial tenants at some of our non-ETRC cinema locations; and
- certain raw land, used in our historic activities.

The following tables detail our real estate segment operating results for the three months ended June 30, 2007 and 2006, respectively (dollars in thousands):

- Revenue increased for the 2007 Quarter by \$1.4 million or 33.6% compared to the same period in 2006. The increase was primarily related to higher rental revenues from our foreign real estate holdings including a \$628,000 increase from our Newmarket shopping center which did not fully open until the third quarter of 2006.
- Operating expense for the real estate segment increased for the 2007 Quarter by \$108,000 or 6.2% compared to the same period in 2006. This increase in expense was primarily related to our Newmarket shopping center in Brisbane, Australia.
- Depreciation expense for the real estate segment increased by \$109,000 or 10.9% for the 2007 Quarter compared to the same period in 2006. The majority of this increase was attributed to the Australia Newmarket shopping center assets which were put into service during the first quarter 2007.
- As a result of the above, real estate segment income increased for the 2007 Quarter by \$1.2 million compared to the same period in 2006 of which \$642,000 was attributable to our Newmarket shopping center.

The following tables detail our real estate segment operating results for the six months ended June 30, 2007 and 2006, respectively (dollars in thousands):

- Revenue increased for the 2007 Six Months by \$2.2 million or 27.4% compared to the same period in 2006. The increase was primarily related the increase in rent from an enhanced rental stream from our recently opened Australia Newmarket shopping center and New Zealand properties of \$2.4 million offset by a decrease in rents from our domestic live theatres.
- Operating expense for the real estate segment increased for the 2007 Six Months by \$397,000 or 11.4% compared to the same period in 2006. This increase in expense was primarily higher operating costs related to our recently opened Australia Newmarket shopping center.
- Depreciation expense for the real estate segment increased by \$127,000 or 6.3% for the 2007 Six Months compared to the same period in 2006. The majority of this increase was attributed to the Newmarket shopping center assets in Australia which were put into service during the first quarter 2007.
- As a result of the above, real estate segment income for the 2007 Six Months increased by \$1.7 million compared to the same period in 2006 of which \$1.2 million was attributable to our Newmarket shopping center.

Corporate

General and administrative expense includes expenses that are not directly attributable to other operating segments. General and administrative expense increased by \$815,000 in the 2007 Quarter compared to the 2006 Quarter primarily related to increased salary expense primarily from our newly appointed Chief Operating Officer, to legal and professional fees associated principally with our real estate acquisition and investment activities, and to our newly adopted Supplemental Executive Retirement Plan.

General and administrative expense increased by \$1.4 million in the 2007 Six Months compared to the 2006 Six Months. The 2007 increases were primarily related to increased corporate compensation expense related to the granting of 70,000 fully vested options to our directors coupled with an increase in director fees; to compensation for our newly appointed Chief Operating Officer; legal and professional fees associated principally with our real estate acquisition and investment activities; and to our newly adopted Supplemental Executive Retirement Plan.

<sup>8</sup> For the six months ended June 30, 2006, the real estate revenues have been adjusted from the amounts previously reported. See Note 1 – *Basis of Presentation*.

Net interest expense increased by \$439,000 and by \$406,000 for the 2007 Quarter and the 2007 Six Months, respectively, compared to last year primarily related to increased interest expense due to higher outstanding loan balances during the 2007 compared to the 2006.

Other income increased by approximately \$465,000 for the 2007 Quarter resulting from a \$224,000 gain on sale of marketable securities coupled with a mark-to-market expense in 2006 not repeated in 2007 related to our option liability for the option held by Sutton Hill Capital, LLC to acquire a 25% non-managing membership interest in our Cinemas 1, 2 & 3 property. Other expense decreased by \$698,000 for 2007 Six Months compared to last year due to a lower mark-to-market expense in 2007 than that recorded in 2006 related to that same option liability; an accrual of \$342,000 for union dues in 2006 not repeated in 2007; and an offsetting gain on sale of marketable securities of \$224,000 in 2007.

During the three and six months ended June 30, 2007, upon the fulfillment of our commitment, we recorded the release of a deferred gain on the sale of a discontinued operation of \$1.9 million associated with a previously sold property.

Equity earnings of unconsolidated joint ventures and entities decreased by approximately \$821,000 for the 2007 Quarter compared to the same period last year and increased by \$368,000 for 2007 Six Months compared to the same period last year. Both the decrease in the 2007 Quarter and the increase in the 2007 Six Months were primarily related to the changing sales activity in our investment related to the *205-209 East 57th Street Associates, LLC*, that has been developing a residential condominium complex in midtown Manhattan called Place 57. The partnership closed on the sale of one and seven condominiums during the three and six months ended June 30, 2007, respectively, resulting in gross sales of \$2.3 million and \$22.6 million, respectively, and equity earnings from unconsolidated joint ventures and entities to us of \$39,000 and \$1.3 million, respectively.

#### Consolidated Net Income/Losses

During 2007, we recorded net income of \$1.6 million and \$988,000 for the 2007 Quarter and 2007 Six Months, respectively. During 2006, we recorded a net loss of \$234,000 and \$3.4 million for the 2006 Quarter and 2006 Six Months, respectively. As noted above, the increase in income is related to improved operating results from both our cinema and our real estate segments and increased income associated with a gain on the sale of a discontinued operation.

#### Acquisitions

##### *New Zealand Property Acquisitions*

On June 29, 2007, we acquired a commercial property for \$5.9 million (NZ\$7.6 million), rented to an unrelated third party, to be held for current income and long term appreciation. We have not yet completed our purchase price allocation for this property and the related acquired operating lease in accordance with SFAS 141 – *Business Combinations*. In addition, we entered into a contract, through a Landplan Property Partners property trust, to purchase 64.0 acres of undeveloped agricultural land for \$9.2 million (NZ\$11.9 million), and made a deposit of \$907,000 (NZ\$1.2 million) with respect to that transaction. The property was subsequently acquired on July 27, 2007 (see Note 18 – *Subsequent Events*). We anticipate rezoning the property from its current agricultural use to commercial use, and thereafter to redevelop the property in accordance with its proposed new zoning. No assurances can be given that any such rezoning will be achieved or, if achieved, that it will be achieved in the near term.

On February 14, 2007, we acquired, through a Landplan Property Partners property trust, a 1.0 acre parcel of commercial real estate for approximately \$5.3 million (NZ\$7.7 million). The property is currently improved with a motel, but we anticipate that this use will be discontinued as we renovate the property and sell the units as condominiums. A portion of this property includes unimproved land that we do not intend to

develop. At the time of purchase, this land was determined to have a fair value of \$1.8 million (NZ\$2.6 million) and is included on our balance sheet as land held for sale. The remaining property and its cost basis of \$3.5 million (NZ\$5.1 million) was included in property under development. The operating activities of the motel are not material. We have completed our purchase price allocation for this property in accordance with SFAS 141 – *Business Combinations*.

#### *Cinemas 1, 2, & 3 Building*

On June 28, 2007, we purchased the building associated with our Cinemas 1, 2, & 3 for \$100,000 from Sutton Hill Capital (“SHC”). Our option to purchase that building has been previously disclosed, and was granted to us by SHC at the time that we acquired the underlying ground lease from SHC. As SHC is a related party to our corporation, our Board’s Audit and Conflicts Committee, comprised entirely of outside independent directors, and subsequently our entire Board of Directors unanimously approved the purchase of the property. The Cinemas 1, 2 & 3 is located on 3rd Avenue between 59th and 60th Streets.

#### *Tower Ground Lease*

On February 8, 2007, we purchased the tenant’s interest in the ground lease underlying the building lease for one of our domestic cinemas. The purchase price of \$493,000 was paid in two installments; \$243,000 was paid on February 8, 2007 and \$250,000 was paid on June 28, 2007.

### **Business Plan, Capital Resources, and Liquidity**

#### Business Plan

Our cinema exhibition business plan is to continue to identify, develop, and acquire cinema properties, where reasonably available, that allow us to leverage our cinema expertise and technology over a larger operating base. Our real estate business plan is to continue to develop our existing land assets, focusing principally on uses that incorporate entertainment elements such as cinemas, and to continue to be sensitive to opportunities to convert our entertainment assets to higher and better uses. In addition, we will actively seek out potential real estate sites in Australia and New Zealand that show profitable redevelopment opportunities.

#### Contractual Obligations

The following table provides information with respect to the maturities and scheduled principal repayments of our secured debt and lease obligations at June 30, 2007 (in thousands):

	2007	2008	2009	2010	2011	Thereafter
Long-term debt	\$ 1,957	\$ 376	\$ 73,411	\$ 12,246	\$ 170	\$ 15,297
Notes payable to related parties	5,000	--	--	9,000	--	--
Subordinated notes	--	--	--	--	--	51,547
Lease obligations	6,049	11,114	11,265	11,055	10,386	68,837
Estimated interest on long-term debt	7,988	11,655	11,643	5,793	4,610	70,680
<b>Total</b>	<b>\$ 20,994</b>	<b>\$ 23,145</b>	<b>\$ 96,319</b>	<b>\$ 38,094</b>	<b>\$ 15,166</b>	<b>\$ 206,361</b>

Estimated interest on long-term debt is based on the anticipated loan balances for future periods calculated against current fixed and variable interest rates.

We adopted FIN 48, “Accounting for Uncertainty in Income Taxes” on January 1, 2007. As of adoption, the total amount of gross unrecognized tax benefits for uncertain tax positions was \$12.5 million increasing to \$12.9 million as of June 30, 2007. The determination of actual amounts and timing of payments

will depend on the activity of tax authorities with respect to the contested tax issues disclosed in Note 10 – *Income Tax* to our 2006 Annual Report on form 10-K. We do not expect a significant tax payment related to these obligations within the 12 months.

#### Unconsolidated Debt

Total debt of unconsolidated joint ventures and entities was \$5.3 million and \$4.8 million as of June 30, 2007 and December 31, 2006, respectively. Our share of unconsolidated debt, based on our ownership percentage, was \$2.4 million and \$2.2 million as of June 30, 2007 and December 31, 2006, respectively.

#### Off-Balance Sheet Arrangements

There are no off-balance sheet transactions, arrangements or obligations (including contingent obligations) that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in the financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

#### Liquidity and Capital Resources

Our ability to generate sufficient cash flows from operating activities in order to meet our obligations and commitments drives our liquidity position. This is further affected by our ability to obtain adequate, reasonable financing and/or to convert non-performing or non-strategic assets into cash. We cannot separate liquidity from capital resources in achieving our long-term goals in order to meet our debt servicing requirements.

Currently, our liquidity needs arise mainly from:

- working capital requirements;
- debt servicing requirements; and
- capital expenditures, centered on obtaining the right financing for the development of our Burwood property.

#### *Operating Activities*

Cash provided by operations was \$7.2 million in the 2007 Six Months compared to \$1.7 million for the 2006 Six Months. The increase in cash provided by operations of \$5.5 million is due primarily to:

- increased cinema operational cash flow primarily from our US and Australia operations;
- increased real estate operational cash flow predominately from our Australia operations. This increase can be particularly attributed to our Newmarket shopping center in Brisbane, Australia; and
- an increase in distributions from unconsolidated joint ventures and entities of \$4.3 million.

#### *Investing Activities*

Cash used in investing activities for the 2007 Six Months increased by \$17.2 million to \$27.4 million from \$10.2 million compared to the same period in 2006. The \$27.4 million cash used for the 2007 Six Months was primarily related to:

- \$11.9 million to purchase marketable securities;

- \$11.8 million to purchase real estate assets including \$11.2 million for real estate purchases made in New Zealand, \$100,000 for the purchase of the Cinemas 1, 2, & 3 building, and \$493,000 for the purchase of the ground lease of our Tower Cinema in Sacramento, California;
- \$7.9 million in property enhancements to our properties; and
- \$1.5 million in our investment in Reading International Trust I securities (the issuer of our Trust Preferred Securities);

offset by

- \$4.0 million in cash provided by the sale of marketable securities; and
- \$1.4 million in distributions from our investment in Place 57.

The \$10.2 million cash used for the 2006 Six Months was primarily related to:

- \$939,000 in cash used to purchase the Queenstown Cinema in New Zealand;
- \$2.8 million in cash used to purchase the 50% share that we did not already own of the Palms joint venture cinema located in Christchurch, New Zealand;
- \$4.6 million in cash used to complete the Newmarket shopping center and for property enhancements to our Australia, New Zealand and U.S. properties; and
- \$1.8 million paid for Malulani Investments, Ltd. stock.

#### *Financing Activities*

Cash provided by financing activities for the 2007 Six Months increased by \$25.7 million to \$31.6 million from \$5.9 million compared to the same period in 2006. The \$31.6 million in cash provided in the 2007 Six Months was primarily related to:

- \$49.9 million of net proceeds from our new Trust Preferred Securities;
- \$14.4 million of net proceeds from our new Euro-Hypo loan;
- \$3.1 million of proceeds from our margin account on marketable securities; and
- \$8.6 million of borrowing on our Australia and New Zealand credit facilities;

offset by

- \$43.5 million of cash used to retire bank indebtedness including \$34.4 million (NZ\$50.0 million) to pay off our New Zealand term debt, \$5.8 million (AUS\$7.4 million) to retire a portion of our bank indebtedness in Australia, and \$3.1 million to pay off our margin account on marketable securities; and
- \$838,000 in distributions to minority interests.

The \$5.9 million in cash provided in the 2006 Six Months was primarily related to:

- \$8.0 million of new borrowings on our Australian Corporate Credit Facility;
- \$3.0 million of a deposit paid by Sutton Hill Capital, LLC of the option to purchase a 25% non-managing membership interest in the limited liability company that owns the Cinemas 1, 2 & 3;

offset by

- \$2.9 million of cash used to pay down long-term debt which was primarily related to the final payoff of the Movieland purchase note payable of approximately \$512,000; the payoff of the Palms –

Christchurch Cinema bank debt of approximately \$1.9 million; and we made the first principal payment on our Australian Corporate Credit Facility of \$280,000;

- \$792,000 of cash used to repurchase the Class A Nonvoting Common Stock (these shares were previously issued to the Movieland sellers who exercised their put option during the 2006 Six Months to sell back to us the shares they had received in partial consideration for the sale of the Movieland cinemas); and
- \$1.5 million in distributions to minority interests.

#### Summary

Our cash position at June 30, 2007 was \$22.4 million compared to \$11.0 million at December 31, 2006. The majority of the \$11.4 million increase in cash related to the following transactions:

- \$7.2 million net cash provided by operating activities;
- \$49.9 million of net proceeds from our new Trust Preferred Securities;
- \$14.4 million of net proceeds from our new Euro-Hypo loan;
- \$3.1 million of proceeds from our margin account on marketable securities;
- \$8.6 million of borrowing on our Australia and New Zealand credit facilities;
- \$1.4 million in distributions from our investment in Place 57; and
- \$4.0 million in cash provided by the sale of marketable securities;

offset by

- \$11.9 million in cash used to purchase marketable securities;
- \$11.8 million to purchase certain real estate assets;
- \$7.9 million in property enhancements to our properties;
- \$43.5 million of cash used to retire bank indebtedness including \$34.4 million (NZ\$50.0 million) to pay off our New Zealand term debt, \$5.8 million (AUS\$7.4 million) to retire a portion of our bank indebtedness in Australia, and \$3.1 million to pay off our margin account on marketable securities;
- \$1.5 million in our investment in Reading International Trust I securities (the issuer of our Trust Preferred Securities); and
- \$838,000 in distributions to minority interests.

#### Critical Accounting Policies

The Securities and Exchange Commission defines critical accounting policies as those that are, in management's view, most important to the portrayal of the company's financial condition and results of operations and the most demanding in their calls on judgment. Although accounting for our core business of cinema and live theatre exhibition with a real estate focus is relatively straightforward, we believe our most critical accounting policies relate to:

- impairment of long-lived assets, including goodwill and intangible assets;
- tax valuation allowance and obligations; and
- legal and environmental obligations.

These critical accounting policies are fully discussed in our 2006 Annual Report and you are advised to refer to that discussion.

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109" (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes." FIN 48 prescribes rules for financial statement recognition and measurement of a tax positions taken or expected to be taken in a tax return. We adopted FIN 48 on January 1, 2007. As a result, we recognized a \$509,000 cumulative increase to reserves for uncertain tax positions, which was accounted for as an adjustment to the beginning balance of accumulated deficit in 2007. Overall, we had approximately \$12.5 million of gross tax benefits unrecognized on the financial statements as of the date of adoption.

#### Financial Risk Management

Our internally developed risk management procedure, seeks to minimize the potentially negative effects of changes in foreign exchange rates and interest rates on the results of operations. Our primary exposure to fluctuations in the financial markets is currently due to changes in foreign exchange rates between U.S and Australia and New Zealand, and interest rates.

As our operational focus continues to shift to Australia and New Zealand, unrealized foreign currency translation gains and losses could materially affect our financial position. We currently manage our currency exposure by creating, whenever possible, natural hedges in Australia and New Zealand. This involves local country sourcing of goods and services as well as borrowing in local currencies. On February 5, 2007, we issued \$51.5 million in 20-year fully subordinated notes and paid off our bank indebtedness in New Zealand \$34.4 million (NZ\$50.0 million) and retired a portion of our bank indebtedness in Australia \$5.8 million (AUS\$7.4 million). By paying off our New Zealand debt and paying down on our Australia debt with the proceeds of our Trust Preferred Securities, we have added an increased element of currency risk to our Company. We believe that this currency risk is mitigated by the comparatively favorable interest rate and the long-term nature of the fully subordinated notes.

Our exposure to interest rate risk arises out of our long-term debt obligations. Consistent with our internally developed guidelines, we seek to reduce the negative effects of changes in interest rates by changing the character of the interest rate on our long-term debt, converting a variable rate into a fixed rate. Our internal procedures allow us to enter into derivative contracts on certain borrowing transactions to achieve this goal. Our Australian credit facilities provide for floating interest rates but require that not less than a certain percentage of the loans be swapped into fixed rate obligations using the derivative contracts.

In accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, we marked our Australian interest rate swap instruments to market on the consolidated balance sheet resulting in a \$74,000 (AUS\$73,000) and \$111,000 (AUS\$112,000) decrease to interest expense during the three and six months ended June 30, 2007, respectively, and a \$442,000 (AUS\$621,000) and \$553,000 (AUS\$755,000) increase to interest expense during the three and six months ended June 30, 2006, respectively. At June 30, 2007 and December 31, 2006, we have recorded the fair market value of our interest rate swaps of \$317,000 (AUS\$373,000) and \$206,000 (AUS\$261,000), respectively, as an other long-term liability. The last swap listed above with a notional amount of \$2,972,000 does not have a "Receive Variable Rate" because the instrument will not be effective until July 1, 2007. In accordance with SFAS No. 133, we have not designated any of our current interest rate swap positions as financial reporting hedges.

## Inflation

We continually monitor inflation and the effects of changing prices. Inflation increases the cost of goods and services used. Competitive conditions in many of our markets restrict our ability to recover fully the higher costs of acquired goods and services through price increases. We attempt to mitigate the impact of inflation by implementing continuous process improvement solutions to enhance productivity and efficiency and, as a result, lower costs and operating expenses. In our opinion, the effects of inflation have been managed appropriately and as a result, have not had a material impact on our operations and the resulting financial position or liquidity.

## Litigation

We are currently, and are from time to time, involved with claims and lawsuits arising in the ordinary course of our business. Some examples of the types of claims are:

- contractual obligations;
- insurance claims;
- IRS claims;
- employment matters
- environmental matters; and
- anti-trust issues.

Where we are the plaintiffs, we expense all legal fees on an on-going basis and make no provision for any potential settlement amounts until received. In Australia, the prevailing party is entitled to recover its attorneys fees, which typically works out to be approximately 60% of the amounts actually spent where first class legal counsel is engaged at customary rates. Where we are a plaintiff, we have likewise made no provision for the liability for the defendant's attorneys' fees in the event we were determined not to be the prevailing party.

Where we are the defendants, we accrue for probable damages, which may not be covered by insurance, as they become known and can be reasonably estimated. In our opinion, any claims and litigation in which we are currently involved are not reasonably likely to have a material adverse effect on our business, results of operations, financial position, or liquidity. However, we do not give any assurance as to the ultimate outcome of such claims and litigation. The resolution of such claims and litigation could be material to our operating results for any particular period, depending on the level of income for such period. There have been no material changes to our litigation exposure since our Company's 2006 Annual Report.

There have not been any material changes to our litigation exposure since our Company's 2006 Annual Report.

## **Forward-Looking Statements**

Our statements in this interim quarterly report contain a variety of forward-looking statements as defined by the Securities Litigation Reform Act of 1995. Forward-looking statements reflect only our expectations regarding future events and operating performance and necessarily speak only as of the date the information was prepared. No guarantees can be given that our expectation will in fact be realized, in whole or in part. You can recognize these statements by our use of words such as, by way of example, "may," "will," "expect," "believe," and "anticipate" or other similar terminology.

These forward-looking statements reflect our expectation after having considered a variety of risks and uncertainties. However, they are necessarily the product of internal discussion and do not necessarily completely reflect the views of individual members of our Board of Directors or of our management team. Individual Board members and individual members of our management team may have different view as to the risks and uncertainties involved, and may have different views as to future events or our operating performance.

Among the factors that could cause actual results to differ materially from those expressed in or underlying our forward-looking statements are the following:

- With respect to our cinema operations:
  - The number and attractiveness to movie goers of the films released in future periods;
  - The amount of money spent by film distributors to promote their motion pictures;
  - The licensing fees and terms required by film distributors from motion picture exhibitors in order to exhibit their films;
  - The comparative attractiveness of motion pictures as a source of entertainment and willingness and/or ability of consumers (i) to spend their dollars on entertainment and (ii) to spend their entertainment dollars on movies in an outside the home environment; and
  - The extent to which we encounter competition from other cinema exhibitors, from other sources of outside of the home entertainment, and from inside the home entertainment options, such as “home theaters” and competitive film product distribution technology such as, by way of example, cable, satellite broadcast, DVD and VHS rentals and sales, and so called “movies on demand;”
- With respect to our real estate development and operation activities:
  - The rental rates and capitalization rates applicable to the markets in which we operate and the quality of properties that we own;
  - The extent to which we can obtain on a timely basis the various land use approvals and entitlements needed to develop our properties;
  - The risks and uncertainties associated with real estate development;
  - The availability and cost of labor and materials;
  - Competition for development sites and tenants
  - Environmental remediation issues; and
  - The extent to which our cinemas can continue to serve as an anchor tenant which will, in turn, be influenced by the same factors as will influence generally the results of our cinema operations; and
- With respect to our operations generally as an international company involved in both the development and operation of cinemas and the development and operation of real estate; and previously engaged for many years in the railroad business in the United States:
  - Our ongoing access to borrowed funds and capital and the interest that must be paid on that debt and the returns that must be paid on such capital;
  - The relative values of the currency used in the countries in which we operate;
  - Changes in government regulation, including by way of example, the costs resulting from the implementation of the requirements of Sarbanes-Oxley;
  - Our labor relations and costs of labor (including future government requirements with respect to pension liabilities, disability insurance and health coverage, and vacations and leave);

- o Our exposure from time to time to legal claims and to uninsurable risks such as those related to our historic railroad operations, including potential environmental claims and health related claims relating to alleged exposure to asbestos or other substances now or in the future recognized as being possible causes of cancer or other health related problems;
- o Changes in future effective tax rates and the results of currently ongoing and future potential audits by taxing authorities having jurisdiction over our various companies; and
- o Changes in applicable accounting policies and practices.

The above list is not necessarily exhaustive, as business is by definition unpredictable and risky, and subject to influence by numerous factors outside of our control such as changes in government regulation or policy, competition, interest rates, supply, technological innovation, changes in consumer taste and fancy, weather, and the extent to which consumers in our markets have the economic wherewithal to spend money on beyond-the-home entertainment.

Given the variety and unpredictability of the factors that will ultimately influence our businesses and our results of operation, it naturally follows that no guarantees can be given that any of our forward-looking statements will ultimately prove to be correct. Actual results will undoubtedly vary and there is no guarantee as to how our securities will perform either when considered in isolation or when compared to other securities or investment opportunities.

Finally, please understand that we undertake no obligation to update publicly or to revise any of our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable law. Accordingly, you should always note the date to which our forward-looking statements speak.

Additionally, certain of the presentations included in this interim quarterly report may contain “non-GAAP financial measures.” In such case, a reconciliation of this information to our GAAP financial statements will be made available in connection with such statements.

### **Item 3 – Quantitative and Qualitative Disclosure about Market Risk**

The Securities and Exchange Commission requires that registrants include information about potential effects of changes in currency exchange and interest rates in their filings. Several alternatives, all with some limitations, have been offered. The following discussion is based on a sensitivity analysis, which models the effects of fluctuations in currency exchange rates and interest rates. This analysis is constrained by several factors, including the following:

- It is based on a single point in time.
- It does not include the effects of other complex market reactions that would arise from the changes modeled.

Although the results of such an analysis may be useful as a benchmark, they should not be viewed as forecasts.

At June 30, 2007, approximately 47% and 23% of our assets were invested in assets denominated in Australian dollars (Reading Australia) and New Zealand dollars (Reading New Zealand), respectively, including approximately \$5.1 million in cash and cash equivalents. At December 31, 2006, approximately 49% and 23% of our assets were invested in assets denominated in Australian dollars (Reading Australia) and New Zealand dollars (Reading New Zealand) including approximately \$9.3 million in cash and cash equivalents.

Our policy in Australia and New Zealand is to match revenues and expenses, whenever possible, in local currencies. As a result, a majority of our expenses in Australia and New Zealand have been procured in local currencies. Due to the developing nature of our operations in Australia and New Zealand, our revenue is not yet significantly greater than our operating expense. The resulting natural operating hedge has led to a somewhat negligible foreign currency effect on our current earnings. Although foreign currency has had a nominal effect on our current earnings, the effect of the translation adjustment on our assets and liabilities noted in our other comprehensive income was \$8.6 million and \$12.4 million for the three and six months ended June 30, 2007. As we continue to progress our acquisition and development activities in Australia and New Zealand, we cannot assure you that the foreign currency effect on our earnings will be insignificant in the future.

Historically, our policy has been to borrow in local currencies to finance the development and construction of our ETRC's in Australia and New Zealand whenever possible. As a result, the borrowings in local currencies have provided somewhat of a natural hedge against the foreign currency exchange exposure. Even so, and as a result of our issuance of fully subordinated notes described below, approximately 49% and 77% of our Australian and New Zealand assets, respectively, remain subject to such exposure unless we elect to hedge our foreign currency exchange between the US and Australian and New Zealand dollars. If the foreign currency rates were to fluctuate by 10% the resulting change in Australian and New Zealand assets would be \$7.8 million and \$5.9 million, respectively, and the change in our quarterly net income would be \$34,000 and \$14,000, respectively. At the present time, we have no plan to hedge such exposure. On February 5, 2007, we issued \$51.5 million in 20-year fully subordinated notes and paid off our bank indebtedness in New Zealand \$34.4 million (NZ\$50.0 million) and retired a portion of our bank indebtedness in Australia \$5.8 million (AUS\$7.4 million). By paying off our New Zealand debt and paying down on our Australia debt with the proceeds of our Trust Preferred Securities, we have added an increased element of currency risk to our Company. We believe that this currency risk is mitigated by the comparatively favorable interest rate and the long-term nature of the fully subordinated notes.

We record unrealized foreign currency translation gains or losses that could materially affect our financial position. As of June 30, 2007 and December 31, 2006, we have recorded a cumulative unrealized foreign currency translation gain of approximately \$45.9 million and \$33.4 million, respectively.

Historically, we maintained most of our cash and cash equivalent balances in short-term money market instruments with original maturities of three months or less. Some of our money market investments may decline in value if interest rates increase. Due to the short-term nature of such investments, a change of 1% in short-term interest rates would not have a material effect on our financial condition.

**Item 3A – Quantitative and Qualitative Disclosure about Interest Risk**

The majority of our U.S. loans have fixed interest rates; however, one of our domestic loans has a variable interest rate and a change of approximately 1% in short-term interest rates would have resulted in an approximately \$4,000 increase or decrease in our 2007 Quarter interest expense.

While we have typically used fixed rate financing (secured by first mortgages) in the U.S., fixed rate financing is typically not available to corporate borrowers in Australia and New Zealand. The majority of our Australian and New Zealand bank loans have variable rates. The Australian facilities provide for floating interest rates, but require that not less than a certain percentage of the loans be swapped into fixed rate obligations (see *Financial Risk Management* above). If we consider the interest rate swaps, a 1% increase in short-term interest rates would have resulted in approximately \$87,000 increase in our 2007 Quarter Australian and New Zealand interest expense while a 1% decrease in short-term interest rates would have resulted in approximately \$90,000 decrease the 2007 Quarter of Australian and New Zealand interest expense.

#### **Item 4 – Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were ineffective as of the end of the period covered by this quarterly report.

The disclosure controls and procedures were ineffective because of a material weakness in controls related to the preparation of the statement of cash flows, which were operating ineffectively as of the reporting date of the consolidated financial statements and failed to prevent or detect errors in our consolidated financial statements.

We concluded that this weakness resulted in an actual material misstatement between operating and investing activities and within the presentation of our financing activities on our interim consolidated statement of cash flows. Specifically, the weakness related to the overstatement of cash provided by investing activities from the sale of marketable securities due to an error in recording such cash flows based on the trade date rather than the settlement date when cash was actually received. Such actual material misstatement has been corrected in the accompanying consolidated statement of cash flows for the six months ended June 30, 2007. We are in the process of enhancing our internal controls in the area of presentation of cash flows for reporting purposes.

#### **Changes in Internal Control over Financial Reporting**

No change in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the quarter ended June 30, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
